Summary	BCA student with strong problem-solving skills and hands-on experience in MERN stack development. Passionate about building scalable applications, exploring new technologies, and contributing to impactful software solutions.

Education	**Kle's G.I. Bagewadi BCA College, Nippani | CGPA: 8.9**	**Oct 2023 – Present**

Projects

Discord Bot (Node.js, Discord.js, REST APIs)   **April 2025**
🔗 Github

- Developed a multi-functional bot for server moderation, user engagement, and entertainment.
- Integrated APIs with modular command structure and secure token management.

Blog App (Node.js, Express.js, MongoDB, Mongoose, JWT, Postman)   **May 2025**
🔗 Github

- Implemented authentication and CRUD APIs with Node.js & Express.
- Secured routes with JWT and tested REST APIs using Postman.

GymBro – Fitness Web App (React.js, React Router, Toastify)   **June 2025**
🔗 LiveDemo

- Developed a responsive fitness platform with user dashboards, trainer profiles, and form validation.
- Integrated toast notifications and clean client-side routing for smooth UX.

Weather App (React.js, OpenWeather API)
🔗 LiveDemo

- Fetched real-time weather data using OpenWeather API with React.js.
- Deployed on Netlify with responsive design.

Achievements / Hackathons / Competitions

Hackathon Participation – Debugger (2025)   **April 2025**

- Assisted the team in fixing API integration and deployment issues.
- Hosted by Google Developer Group, Kolhapur.

Coding Profile : Solved Over 100 problems on verious coding platforms.
🔗 Codolio

Skills

Languages : C++ , Java , Python, Javascript

Web Dev : React , Node.js , Express , MongoDB , REST API's, JWT Authentication

Database : MongoDB, SQL

Tools : Git , Github , Postman , Netlify, VScode

CS Fundamentals : Data Structures & Algorithms (DSA), OOP, DBMS

Certifications

Full Stack Development \| Dr. Angela Yu   **July 22, 2025**
🔗 Certificatite
